## SWAN OVERSHADOW FOR CANNES

*The OverShadow will premiere at the Cannes Yachting Festival alongside the Shadow, Swan's first motor yacht, which has inspired a growing range.*

**N**autor Swan will kick off its presence at four September shows in Europe with the world premiere of the OverShadow at the Cannes Yachting Festival (September 12-17). It will also exhibit the Shadow in Port Vieux and display the Swan 55, 58 and 78 sailing yachts in Port Canto.

Launched in 2021, the Shadow was Swan's first motor yacht and conceived as a tender for superyachts such as Swan Maxis. The 43-footer evolved to become not only a tender but also a weekender, supply vessel or day boat, and is already present in north and south Europe, Asia and the Americas. Its success led Swan to consider a motor yacht range, which led to the OverShadow.

The first OverShadow is scheduled to launch in July. Engineered for long-distance trips, the yacht is based on the Shadow's high-performing hull but with more space below deck and inboard engines. The OverShadow features Volvo Penta engines and Garmin instrumentation, whereas the Shadow uses Mercury and Simrad respectively.

The OverShadow offers a high-low swim platform and multiple layout options. The flush deck includes a triple sunbed aft and a covered forward area with a wet bar and foldable dining table surrounded by four sides of seating.

The bow's closed design creates more space in the forward end of the lower deck, where the OverShadow offers a double or twin-bed configuration. It also has a larger bathroom than its predecessor.

While much of the brand heritage stems from the Finnish shipyard founded in 1966, Swan's motor yachts are designed by an international team and built in Italy at the dedicated 'Casa Shadow' facility at Oversea.

Roy Capasso, EMEA and USA Regional Director and Power Yacht Commercial Director, said: "We designed the Shadow as a niche 42-footer, for real connoisseurs, and never thought to have serial production. However, following feedback, we started creating a range including the OverShadow. We're very happy for the success of the Shadow, but we want to raise the bar and achieve more."

Nautor will display a Swan 58 at the Southampton International Boat Show (September 15-24), the Shadow, OverShadow, Swan 48 MKII and Swan 55 at the Genoa International Boat Show (September 21-26) and the Swan 108 at the Monaco Yacht Show (September 27-30). ☽
